Members Online Resources

Search the GSV Library catalogue

In the 'TOPIC' box, enter the keyword(s) of the title or subject.

To search plurals and other word endings, use an asterisk (*) attached to the stem e.g. cemet*.

To find a phrase surround the words with quotes e.g. "New South Wales"

Click or tab to move to the other boxes if more parameters are required to narrow the search.

AND TOPIC

The 'AUTHOR' box searches for authors, editors, etc. Use * as above e.g. F* Smith.

Use the name of the country/state for corporate authors such as government depts e.g. "United Kingdom" or Victoria. This is useful for limiting results to 'official' records.

AND Author:

The CALL NUMBER may be used to limit the format of the search such as microfiche, microfilm, computer, Internet, map, podcast, article or the classification number e.g. 929.2* for family histories. Clicking the left hand tab to NOT will exclude that type of item

AND Call number or format:

Boolean searches may be used within the boxes using OR, quote marks for phrases and to exclude a word using a space minus e.g. Victoria -Canada excludes the town of Victoria in Canada.

The left hand Boolean query buttons may also be clicked to switch between AND, OR, NOT.

Proximity and range searches are also available.
